

NUTRITION GUIDE

HYPOXI[®]

HYPOXI.COM.AU

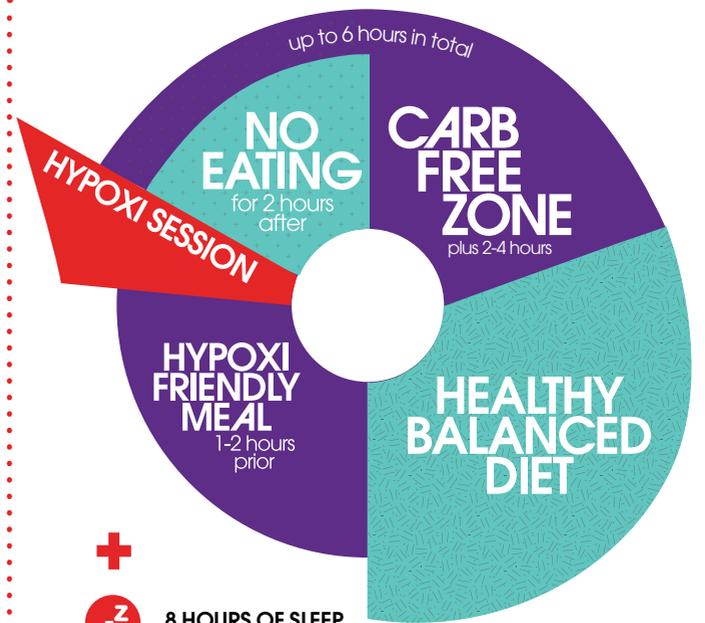

Healthy eating means following a balanced diet that provides you with the adequate energy at the right time to ensure your body burns the maximum amount of fat during your HYPOXI-Training. To ensure you achieve the best results, simple nutritional guidelines should be followed before and after your HYPOXI session.

BETTER NUTRITION BETTER RESULTS

WHAT IS A CARB?

- POTATOES
- SWEET POTATOES
- PUMPKIN
- BETROOT
- CARROTS
- RICE / COUS COUS
- PASTA / NOODLES
- LEGUMES / BEANS
- NUTS / SEEDS
- BREAD / PASTRY
- OATS / CEREAL
- BANANAS
- MELON
- MANGO
- CHERRIES
- APPLE / PEAR
- DRIED FRUIT
- MILK / YOGURT
- ICE CREAM
- SUGAR
- CHOCOLATE
- LOLLIES
- JAMS / PRESERVES

- 8 HOURS OF SLEEP
- NO ALCOHOL after session
- NO CAFFEINE after session
- NO EXERCISE on HYPOXI days for optimum results
- KEEP HYDRATED 1.5-2 l of water

WHY DO YOU NEED TO AVOID CARBS?

To maximise the amount of fat your body metabolises during and after HYPOXI, it is important that you don't consume any food for two hours after your HYPOXI session and then no carbohydrates for a further 2-4 hours otherwise you will just burn food instead of your stubborn fat. **Don't forget!** Carbs are sneaky and not only found in pasta, bread and rice. Avoid any of the foods that contain more than 10gm of carbs per 100gm and eating unnecessary snacks.

POST HYPOXI MEAL IDEAS

BREAKFAST

- 1 x small tub of natural yoghurt with fresh berries
 - 1 x hard boiled egg
- 1 x poached egg and steamed spinach
